- Item 2 in orange

## Second frame

- Item 1
- Item 2 in orange
- Item 3 is an equation:

$$W^* = \operatorname{argmin}(G_o - G_j \cdot W)'V(G_o - G_j \cdot W)$$

where

$$\sum_{j=1}^J w_j = 1 \quad \text{and} \quad w_j \geq 0$$
